National Highways Authority of India
MINISTRY OF ROAD TRANSPORT & HIGHWAYS

April 01, 2026

National Highways Authority of India (NHAI), after the successful pilot of its winter internship and the ongoing 6-month internship program for Civil Engineering students is launching a Two-Month Summer Internship Program for full-time undergraduate students and postgraduate students in certain specialized disciplines for the period of May to June 2026.

Building on the strong response received earlier, the program is now being expanded to students across a wider range of disciplines such as management, law, finance, mass communication and other relevant fields from top tier colleges in India.

The initiative is aligned with the spirit of the National Education Policy (NEP) 2020, which encourages experiential learning, industry exposure and boosts employability by offering flexible curricula and credit-linked internships, including internships during undergraduate and postgraduate programs.

The objective of the program is to provide hands-on professional exposure to students by engaging them in real-world projects and institutional functions related to national highway development, digital systems, and public infrastructure delivery. The program seeks to bridge the gap between academic learning and industry practice while creating a pipeline of future-ready talent for the infrastructure sector.

The internship is of two months duration, from 04th May 2026 to 26th June 2026 (Dates are flexible to align with academic requirements). The location for the internship would be among NHA Headquarters, Regional Offices, Project Implementation Units (PIUs), and associated project sites.

The support provided by the Ministry of Education in launching the program and getting a strong response from the stakeholders has been commendable. Now that the internship program has been expanded to cover additional disciplines during the summer, it will be appreciated that a letter to this effect is written from your side to all the stakeholders including AICTE, HODs of all IITs/NITs/IIMs, UGC & Heads of Central Universities in order to encourage eligible students to apply through the NHA Internship portal.

- 2 -

Students will be required to fill the online application form with academic and personal details by April 15, 2026. They will be required to register themselves first at the registration link.

Further, the Universities/Institutes/colleges (top 200 NIRF ranked Engineering colleges including IITs and NITs, top 50 NIRF ranked Management and law colleges, all prominent Mass communication/Journalism colleges/institutes) may also be requested to nominate a faculty coordinator (department wise, if required) to support students and act as a point of contact for NHAI. The details of the coordinator/nodal officer (name, designation, mobile number and email ID) may kindly be shared with NHAI at internship@nhai.org. Queries, if any, may also be addressed at the same email ID.

Looking forward to your kind and positive assistance in this initiative and to providing students with meaningful professional exposure in the national infrastructure ecosystem.

With Regds,

Yours sincerely,

(Santosh Kumar Yadav)
